Commenting on the appointments, Peter Nicolle said "Minerva is delighted to announce these appointments, which allied to our plans for future growth will see us adding further trust professionals to our team. This reflects the continued growth of our business, and in these turbulent times the fact that we remain one of the leading independent Jersey based trust operations is a key element of these plans. Specific to achieving our goals is the strength of our people, and it is gratifying that these appointments recognise the contribution that Sylvie, Terry, Rob and Nina have made within Minerva. Their collective depth of knowledge and experience will be highly valued when they assume their wider responsibilities.
